Response to Amendment

1. Applicant's amendment and arguments of November 16, 2005 are acknowledged and entered.
2. The final rejection of September 16, 2005 is hereby withdrawn and a new office action follows.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 12 and 17 are rejected under 35 U.S.C. 102(b) as being anticipated by Fischer et al. '179

Fischer et al. '179 shows a telescoping waterway comprising a hollow outer tube 24, a hollow inner tube 38 within the hollow outer tube, an actuator 36 that moves the hollow inner tube relative to the hollow outer tube wherein the hollow inner tube can be maintained in at least one intermediate position between a retracted position and a fully extended position, and an internally threaded rotatably driven nut 32 positioned at the top of the hollow outer tube. In regards to claim 17, it has been held that a recitation with respect to the manner in which a claimed apparatus is intended to be employed does not differentiate the claimed apparatus from a prior art apparatus satisfying the claimed structural limitations.

Allowable Subject Matter

Art Unit: 3752

5. Claims 1-11 and 22-28 are allowed.
6. Claims 13-16, 18-21, 29, and 30 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
